

# INTERDEPARTMENTAL MAJORS/EMPHASES AND MINORS - COBE

The College of Business and Economics offers several interdepartmental programs that allow collaboration across disciplines. These programs allow students to combine knowledge and skills from different areas, which is particularly beneficial for developing majors and minors, enabling students to take courses across multiple departments within the college.

## Majors:

1. Business Undecided
  - a. This program is ideal for students interested in a business-related major but may not be ready to declare a specific major. This program allows students to stay on track to graduate by taking the required BBA Core classes. After declaring a specific BBA major, a student may move on to their specific requirements for the major.
2. Entrepreneurship and Innovation (BBA)
  - a. Tailored for innovative, creative, and solution-driven students, this program provides tools to identify challenges in entrepreneurial ventures, evaluate business opportunities, and develop comprehensive start-up plans focusing on financing, marketing, and organization.
3. General Business (BBA)
  - a. Offering broad exposure to business disciplines, this program allows students to customize their education by choosing courses from areas such as accounting, economics, finance, business law, information technology, management, marketing, occupational safety and health and supply chain management.
4. Integrated Science and Business (BBA)
  - a. This unique program blends science and business. Students complete biology, chemistry, geography, geology, math, or physics courses alongside business courses in management and other core areas.
5. International Business (BBA)
  - a. Designed for students with a global perspective, this program provides an in-depth understanding of international economics, finance, management marketing, supply chain management, and cross-cultural communication.
