

UNIVERSITY HONORS PROGRAM (HONORS)

Courses

HONORS 104 INTRODUCTION TO BRIDGE *Repeatable* 1 Units

A study of critical thinking skills and strategies, particularly as they pertain to the game of bridge, including logical thinking, inferential analysis, problem-solving skills, sequencing, visualization, lateral thinking, memory, observation, and psychological strategies. Communication skills found during bidding (including conventional bids) and card play (signaling) will also be addressed. No prior knowledge is needed.

HONORS 280 HONORS EXPLORATION: A SURVEY OF ACADEMIC DISCIPLINES 2 Units

In this course, students will be introduced to a wide range of academic disciplines through engaging lectures by professors from diverse fields. Each guest lecturer will provide insights into their discipline, discussing the core ideas, methodologies, and challenges that define their work. They will also explore why their field is both intellectually stimulating and socially important, sharing personal perspectives and experiences. Additionally, the lectures will include discussions on potential career paths and opportunities within each discipline, helping students understand how their academic interests can translate into real-world applications and professional development.
