¹ Note: The Water Business Minor is available to College of Business and Economics majors only. A GPA of at least 2.50 within the minor is required at time of completion of the minor. Except for one GL course (marked with an asterisk *), courses cannot count towards both the major and the minor. Students must receive department and program approval prior to registering for the Independent Study and Internship courses (marked with a pound symbol #). The elective courses have prerequisites among the Water Business Minor required courses and cannot be taken prior to the completion of the required courses.
